Alienware OptX AW2310 23" 3D 120Hz Full HD monitor

Colocado por nuno_p - 01 Fev 2010 21:04

_____

Immerse yourself in the new Alienware OptXTM AW2310 3D monitor’s 23" display with a Full HD 1920 x 1080 resolution, 16:9 aspect ratio, 400 cd/m2 brightness and 80,000:1 dynamic contrast ratio. Watch your games and movies transform into intense stereoscopic 3D. While its dramatic profile makes a powerful statement, it’s easy to adjust the swivel, tilt and height of the display to better suit you and your surroundings.

Ultrafast refresh rate

At double the refresh rate of standard displays, the Alienware OptXTM AW2310 23" Full HD widescreen monitor’s 120Hz refresh rate achieves virtually flawless image quality during fast action sequences while also enabling the display’s 3D capabilities.

Low input lag

With low input lag, you can charge your enemies in real time and make the kill before they even know what hit them. (In DVI mode only).

Lighting-fast response time

View clearer, crisper images with the 3ms ultrafast response time.

_____

Mas a qualidade paga-se.

Mas já se sabe como é a alienware, é tipo a apple paga-se mais a marca do que o equipamento em questão.

_____

Sempre gostei dos PCs da Alienware, mas isto é simplesmente... :D
